PART I

IMPORTANT GOVERNMENT ORDERS

REVENUE SECRETARIAT

Sanctions grant of a subsidy not exceeding 50 per cent of the estimated cost of irrigation wells subject to a maximum of Rs. 500 per well in connection with Distress Relief.

ORDER NO. R. 6349-62—R. M. 37-45-152, DATED BANGALORE, THE 12TH MARCH 1946.

In view of the adverse seasonal conditions and the consequent distress prevailing in the State, particularly in the Districts of Chitaldrug, Kolar and Tumkur, Government consider that some special measures are necessary to stimulate food production and that greater inducement should be held out to the raiyats to sink irrigation wells for raising food crop. Government are accordingly pleased to direct that a subsidy not exceeding 50 per cent of the estimated cost of such irrigation wells be given for sinking irrigation wells subject to a maximum of Rs. 500 per well. The grant of subsidy will be subject to the following conditions :—

(1) The wells should be completed before the end of June 1946 and only food crops will be permitted to be raised under these wells during the next three years commencing from 1945-46.

(2) One-half of the subsidy will be paid when the well work is taken up and the other half will be treated as a loan and will be written off if the well is completed by the 30th June 1946.

(3) If the conditions of the grant are violated, the entire amount advanced including the amounts granted as a subsidy will be recoverable immediately as an arrear of Land Revenue Demand.

(4) If the raiyat requires financial assistance under the Land Improvement Loan Rules to meet the balance, if any, of cost of the well, a loan to the extent necessary will be granted under the normal rules. These loans will be free of interest for the first year and will bear a low rate of interest of 2 per cent per annum from the second year onwards.

The benefit of a similar subsidy will be extended in the case of irrigation wells sunk on or after 1st April 1946 in other districts of the State with the modification that the amount of subsidy in these cases will be limited to 25 per cent out of which 12½ per cent will be paid at the commencement of the work and the balance after the work is completed.

2. An additional allotment of Rs. 2 lakhs is sanctioned for the purpose. The Revenue Commissioner is requested to distribute this amount among the several districts in proportion to the demand therein. A supplementary demand for the above amount will be placed before the Legislative Council in due course.

3. The Revenue Commissioner may also contact the Military authorities as they are in a position to help in the matter of sinking and deepening of wells.

4. The Revenue Commissioner is requested to issue suitable instructions to the Deputy Commissioners to ensure that proper advantage is taken of the above concessions and that a large number of irrigation wells are sunk before the end of the official year. He is also requested to submit proposals for special staff, if any, which may be necessary for attending to the work connected with the scheme.

5. The concession will also apply to those cases which involve deepening of existing wells.
